Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative discussed features of Applicant's invention that was believed not to be taught by the applied prior art. Examiner discussed the Examiner's interpretations of the applied art. In particular, the Examiner pointed to col.4, line 33-col. 5, line 11 of Rozen to show how Rozen taught Applicant's partially patient-controlled security sub system. The Examiner suggested that Applicant focus on features supported by the originally filed specification that was not taught by the applied prior art of record. The Examiner will re-consider the applied prior art in view of Applicant's amendments.
